Capacity	
Inch	0.028-1/4
mm	0.7-6.5
Key Number	KG1
Jacobs Model Number	30248

Convert your power screwdriver or impact driver into a versatile drill. Also known as adapt-a-drive, these chucks have a standard 1/4" hex shank that fits the hex socket of most power screwdrivers and impact drivers. For use in both forward and reverse tool operation.

Choose from keyed or keyless chucks. Keyed chuck is made of steel and is furnished with a chuck key. Chuck holds a #70 drill bit.
