

February 1, 2019

It is with great sadness to inform our customers that Thurston Mfg. Co. will be closing their manufacturing plant effective this date, February 1, 2019. As such, no orders will be taken for any special make products or to replenish any stock items that have been depleted from our current inventory. Any service work such as sharpening or regrinding cannot be accepted. We will continue to accept orders for any stock catalog items that we have in inventory on a credit card basis only until such time as the majority of the inventory has been depleted.

It has been our sincere effort for the last 136 years to provide high quality products on a timely basis and provide excellent customer service, and we hope we were successful in our endeavors.

Factors such as a declining demand for our products, coupled with aging machinery, steel tariffs, and a aging workforce, will not allow us to meet the financial obligations to support our operation.

For any customers with outstanding orders, a member of our sales team will be in touch with you shortly for solving pending issues.

We genuinely thank you for your past business and we appreciate your efforts in being a good customer for us. We also want to thank you for believing in our services and granting us the pleasure of serving you for the last 136 years.

Most Sincerely,

Michael Redinger
Vice-President
Thurston Mfg. Co.
